a

abdomen, acute, plain films for evaluation of (*tip*), March, p. 308
abdominal abscesses, imaging of (*tip*), June, p. 228
abdominal films, upright, value of, in evaluation of abdominal pain (*tip*), January, p. 274
abdominal pain, value of upright abdominal films in evaluation of (*tip*), January, p. 274
abortion, spontaneous, and death (*tip*), February, p. 351
abscess(es)
—abdominal, imaging of (*tip*), June, p. 228
—CT scanning in the diagnosis and management of (*tip*), March, p. 318
—lung, in children (*tip*), June, p. 202
acalculous cholecystitis, acute, after trauma (*tip*), March, p. 274
acetabular bone destruction from NSAIDs (*tip*), March, p. 320
acetaminophen overdose, acute, management of, *May, p. 107
activity, physical, in the young, *March, p. 155
acute abdomen, plain films for evaluation of (*tip*), March, p. 308
adenoviral infection in children (*tip*), February, p. 314
adenovirus infection in children (*tip*), April, p. 292
adolescence, lipid and blood pressure levels in, track into adulthood (*med*), February, p. 295
adolescent boys, risk factors for atherosclerosis in (*tip*), January, p. 249
adolescent runners, female, decreased iron stores in (*tip*), June, p. 211
adolescent substance and alcohol abuse (*ed*), May, p. 82
adolescents, children and, self-inflicted injuries in (*tip*), April, p. 291
adrenal masses, unsuspected, on CT (*tip*), January, p. 273
age
—gestational, assessing, *February, p. 215
—old, itself does not prohibit open heart surgery (*med*), January, p. 240
AIDS
—children with (*tip*), June, p. 207
—hepatitis B vaccine and (*tip*), March, p. 312
—and high-risk groups, seborrheic dermatitis may signify (*med*), March, p. 263
—in high-risk persons, herpes zoster may herald (*med*), June, p. 197
AIDS incidence increases as experts continue investigations (*news*), March, p. 328
AIDS patients, pneumonia in (*tip*), January, p. 266
AIDS virus
—antibody may prevent transmission of, by saliva (*news*), April, p. 301
—in cerebrospinal fluid (*tip*), May, p. 254
—transmission of, by artificial insemination (*tip*), May, p. 266
airway studies, dynamic, cine CT for (*tip*), February, p. 322
alcohol, drugs and, in trauma (*tip*), January, p. 252
alcohol abuse, substance and, adolescent (*ed*), May, p. 82
alcohol and atrial fibrillation (*tip*), January, p. 294
alcohol withdrawal, acute, cardiorespiratory findings in (*tip*), February, p. 326
alpha-interferon therapy, thrombocytopenia after (*tip*), May, p. 272
amaranth seeds may cause anaphylactic reactions (*med*), March, p. 266
aminotransferases, elevated, in childhood muscle disease (*tip*), May, p. 284
amputation vs. limb salvage: psychologic outcome (*tip*), May, p. 274
anabolic steroid use in women athletes (*tip*), January, p. 290
anal incontinence, management of, *March, p. 129
anaphylactic reactions, amaranth seeds may cause (*med*), March, p. 266
anemia, immune hemolytic, induced by sulindac (*tip*), March, p. 318
anesthetic risk in hypertrophic obstructive cardiomyopathy (*tip*), March, p. 320
aneurysmal bone cyst, *June, p. 137
aneurysms, popliteal (*tip*), February, p. 310
angina, headaches during episodes of (*tip*), March, p. 272
ankle fractures, longstanding diabetes carries risk of (*med*), April, p. 235

anorectal malformation, sacral bony abnormality and presacral mass, *January, p. 133
anorexia nervosa, treatment of (*tip*), January, p. 283
antibiotic therapy, efficacy of, for streptococcal pharyngitis (*tip*), February, p. 308
antibiotics, gastrointestinal reactions from (*tip*), May, p. 272
antibody may prevent transmission of AIDS virus by saliva (*news*), April, p. 301
anticonvulsant therapy, behavioral and cognitive effects of (*tip*), May, p. 248
antidepressant, tricyclic, overdose (*tip*), May, p. 283
antidepressants, lithium is helpful in some patients on (*med*), April, p. 236
antihypertensive for black patients, verapamil may be good (*med*), March, p. 266
antihypertensive agent, verapamil shows efficacy as (*med*), January, p. 239
antihypertensive effects of four beta blockers (*tip*), March, p. 306
aortic reconstruction, CT assessment of graft healing after (*tip*), February, p. 316
aortic valve prolapse (*tip*), April, p. 278
apnea
—infantile, prolonged, and SIDS (*tip*), March, p. 269
—of prematurity, theophylline for (*tip*), February, p. 310
—sleep, study reveals strongest predictor of (*med*), January, p. 240
appendicitis, differentiation of, from pelvic inflammatory disease (*tip*), February, p. 300
appendicitis cases, a cluster of (*tip*), April, p. 271
arrhythmias
—from digitalis intoxication (*tip*), March, p. 286
—transient, can be detected by telephone monitoring (*med*), June, p. 198
—ventricular, management of, *March, p. 236
—ventricular, a new drug for: tocainide, *January, p. 233
arteriopathy, renal, cyclosporine-associated (*tip*), February, p. 340
arteriovenous fistulas, pulmonary (*tip*), January, p. 268
artificial insemination, transmission of AIDS virus by (*tip*), May, p. 266
asbestos exposure and lung cancer (*tip*), January, p. 283
asbestos worker, carcinoma of the colon in (*tip*), May, p. 240
ascites, pancreatic (*tip*), May, p. 247
ascorbic acid, nephropathy from (*tip*), February, p. 313
aspiration cytology for staging urologic cancer (*tip*), April, p. 241
aspiration pneumonia: a review, *March, p. 195
asthma, risk factors for, in children (*tip*), February, p. 351
asthmatic children, sudden death in (*tip*), March, p. 304
atherosclerosis, risk factors for, in adolescent boys (*tip*), January, p. 249
athletes, women, anabolic steroid use in (*tip*), January, p. 290
atrial fibrillation, alcohol and (*tip*), January, p. 294
atrial tachycardia, multifocal, verapamil controls (*med*), June, p. 197
atrophy, cutaneous, after corticosteroid injection, *January, p. 183
attention deficit disorder (*tip*), March, p. 270
attention deficit disorder rating scale (*tip*), June, p. 218
auscultatory percussion of the urinary bladder (*tip*), March, p. 276
autism, infantile, *June, p. 149

b

back pain, low, *March, p. 173
bacteria, survival of, in ice (*tip*), January, p. 293
bacterial meningitis, drugs of choice for, *February, p. 285
barium enema, double-contrast, patients prefer colonoscopy to (*med*), May, p. 223
bedside maneuvers can identify likely origin of systolic murmurs (*med*), May, p. 223
bee venom immunotherapy (*tip*), March, p. 286
behavioral and cognitive effects of anticonvulsant therapy (*tip*), May, p. 248
beta blockers, four, antihypertensive effects of (*tip*), March, p. 306
beta-adrenergic receptors in cardiac ischemia (*tip*), May, p. 235
bezoars, gastric, *March, p. 123
bile duct obstruction, common, diagnosis of (*tip*), April, p. 275
biliary cirrhosis, primary, *May, p. 155
biliary obstruction, malignant, percutaneous drainage of (*tip*), April, p. 254
bilirubin levels, racial differences in (*tip*), January, p. 264
birth control misconceptions, Gallup survey uncovers (*news*), April, p. 296
bladder, urinary, auscultatory percussion of (*tip*), March, p. 276
blood glucose, self-monitoring of, *February, p. 225
blood pressure levels, lipid and, in adolescence track into adulthood (*med*), February, p. 295
blue toe syndrome, *June, p. 107
Boerhaave's syndrome (*tip*), June, p. 208
bone cyst, aneurysmal, *June, p. 137
bone destruction, acetabular, from NSAIDs (*tip*), March, p. 320

breast cancer
—adjuvant chemotherapy for (*ed*), June, p. 79
—answers to questions about, *April, p. 214
breast carcinoma, gonadotropin-releasing hormone in (*tip*), April, p. 278
breast carcinoma in situ, treatment of (*tip*), March, p. 312
breast masses, nonpalpable, needle localization of (*tip*), January, p. 289
bronchodilator therapy, new concepts in, *January, p. 218
bronchoscopy, fiberoptic, for evaluation of hemoptysis (*tip*), January, p. 273
Budd-Chiari syndrome (*tip*), January, p. 243
bulimia, hand lesions in (*tip*), June, p. 217
burns, caustic, from wet cement (*tip*), February, p. 320

C

cancer
—breast, adjuvant chemotherapy for (*ed*), June, p. 79
—breast, answers to questions about, *April, p. 214
—cerebrovascular accidents in children with (*tip*), April, p. 248
—colorectal, detection of, *January, p. 177
—colorectal, symptomatic, diagnostic delay in (*tip*), June, p. 222
—head and neck, intra-arterial chemotherapy for (*tip*), April, p. 288
—head and neck, photodynamic therapy for (*tip*), February, p. 316
—lung, asbestos exposure and (*tip*), January, p. 283
—lung, declines in white men, rises in women and blacks (*news*), January, p. 297
—oral; smokeless tobacco use increases risks of, says NIH panel (*news*), March, p. 333
—prostatic, chemotherapy for (*tip*), May, p. 264
—prostatic, identification of metastases from (*tip*), March, p. 278
—rectal, preoperative radiotherapy for (*tip*), January, p. 261
—urologic, aspiration cytology for staging (*tip*), April, p. 241
cancer patients
—erythema ab igne in (*tip*), June, p. 231
—head and neck, interleukin-2 production in (*tip*), May, p. 229
capital femoral epiphysis, slipped, *April, p. 167
captopril may be superior to hydralazine in congestive heart failure (*med*), February, p. 296
carbamazepine may offer better quality of life for epileptics (*med*), April, p. 236
carcinoma
—breast, gonadotropin-releasing hormone in (*tip*), April, p. 278
—breast, in situ, treatment of (*tip*), March, p. 312
—of the colon in an asbestos worker (*tip*), May, p. 240
—hepatocellular (*tip*), January, p. 276
—lung, occult, CT findings in (*tip*), January, p. 244
cardiac catheterization (*tip*), May, p. 229
cardiac changes associated with endurance testing (*tip*), March, p. 296
cardiac function, changes in, are associated with viral infections (*med*), February, p. 295
cardiac ischemia, beta-adrenergic receptors in (*tip*), May, p. 235
cardiac rhythm disturbances in acute rheumatic fever (*tip*), April, p. 271
cardiac sarcoidosis (*tip*), May, p. 230
cardiac surgery patients, carotid artery stenosis in (*tip*), March, p. 314
cardiomyopathy, hypertrophic obstructive, anesthetic risk in (*tip*), March, p. 320
cardiorespiratory findings in acute alcohol withdrawal (*tip*), February, p. 326
carotid artery stenosis in cardiac surgery patients (*tip*), March, p. 314
carotid surgery in stroke prevention, *April, p. 109
catheterization
—cardiac (*tip*), May, p. 229
—in children with meningomyelocele (*tip*), May, p. 253
catheters
—intravascular, in infants pose threat to epiphyses (*med*), April, p. 236
—peritoneal dialysis, complications of (*tip*), February, p. 313
cellulitis, perianal streptococcal (*tip*), May, p. 272
cement, wet, caustic burns from (*tip*), February, p. 320
cerebrospinal fluid, AIDS virus in (*tip*), May, p. 254
cerebrovascular accidents in children with cancer (*tip*), April, p. 248
cerebrovascular disorders associated with pregnancy, *June, p. 125
cervical spondylosis, *May, p. 89
chelation products, oral (*FDA*), March, p. 325
chemotherapy
—adjuvant, for breast cancer (*ed*), June, p. 79
—intra-arterial, for head and neck cancer (*tip*), April, p. 288
—for prostatic cancer (*tip*), May, p. 264
—for sarcoma diagnosed during pregnancy (*tip*), April, p. 256
chest pain in children (*tip*), February, p. 338
Chilaiditi's syndrome (*tip*), February, p. 305
child, febrile, evaluation of (*tip*), April, p. 286

childhood muscle disease, elevated aminotransferases in (*tip*), May, p. 284
childhood poisoning as a sign of family distress (*tip*), January, p. 290
children
—adenoviral infection in (*tip*), February, p. 314
—adenovirus infection in (*tip*), April, p. 292
—with AIDS (*tip*), June, p. 207
—asthma in, risk factors for (*tip*), February, p. 351
—asthmatic, sudden death in (*tip*), March, p. 304
—with cancer, cerebrovascular accidents in (*tip*), April, p. 248
—chest pain in (*tip*), February, p. 338
—enuretic, guide to the history in, *April, p. 205
—hyperactive, treated in private practice (*tip*), April, p. 266
—intracranial neoplasms in, *February, p. 243
—lung abscess in (*tip*), June, p. 202
—with meningomyelocele, catheterization in (*tip*), May, p. 253
—pneumococcal vaccine in (*tip*), March, p. 278
—seizures in, home video recording of (*tip*), May, p. 280
—self-inflicted injuries in, and adolescents (*tip*), April, p. 291
—urinary tract infection in (*tip*), January, p. 254
chlamydial conjunctivitis in neonates, treatment of (*tip*), January, p. 296
cholecystitis, acute acalculous, after trauma (*tip*), March, p. 274
cigarettes, low-tar, respiratory symptoms from (*tip*), January, p. 294
cimetidine and sexual dysfunction (*tip*), January, p. 280
cine CT for dynamic airway studies (*tip*), February, p. 322
cirrhosis
—precursor lesion of (*tip*), April, p. 272
—primary biliary, *May, p. 155
cocaine, freebase, new form of, intensifies drug's adverse effects (*news*), February, p. 356
cocaine use, myocardial infarction after (*tip*), March, p. 302
cod-liver oil may benefit patients with coronary artery disease (*med*), February, p. 296
cognitive effects, behavioral and, of anticonvulsant therapy (*tip*), May, p. 248
cold urticaria, *February, p. 145
colitis from peanut shells (*tip*), February, p. 298
colon, carcinoma of, in an asbestos worker (*tip*), May, p. 240
colonoscopy
—chemical proctitis after, is linked to cleaning agent (*med*), June, p. 198
—patients prefer, to double-contrast barium enema (*med*), May, p. 223
colorectal cancer
—detection of, *January, p. 177
—symptomatic, diagnostic delay in (*tip*), June, p. 222
compression stockings effectively prevent venous thrombosis (*med*), January, p. 239
congenital hypothyroidism (*tip*), June, p. 201
congenital nevus, giant, and melanoma, *June, p. 167
congenital obstruction of the nasolacrimal duct (*tip*), March, p. 300
congenital syphilis (*tip*), March, p. 285
conjunctivitis, chlamydial, in neonates, treatment of (*tip*), January, p. 296
convulsions, pertussis vaccine and (*tip*), April, p. 262
coronary artery disease, cod-liver oil may benefit patients with (*med*), February, p. 296
coronary artery spasm after recanalization (*tip*), January, p. 289
coronary blood flow and intracoronary injections (*tip*), March, p. 294
coronary bypass surgery, repeat, results are good with (*med*), May, p. 224
coronary care unit, infections in (*tip*), June, p. 217
coronary disease
—in women, diabetes is major risk factor for (*med*), February, p. 296
—symptomatic, low-fat diet and exercise modify (*med*), June, p. 197
coronary thrombolysis with precursor of urokinase (*tip*), April, p. 247
corticosteroid injection, cutaneous atrophy after, *January, p. 183
Crohn's disease, massive bleeding in (*tip*), March, p. 316
CRS rates, rubella and, decline in 1985 but still cause concern (*news*), June, p. 246
CT
—cine, for dynamic airway studies (*tip*), February, p. 322
—unsuspected adrenal masses on (*tip*), January, p. 273
CT assessment of graft healing after aortic reconstruction (*tip*), February, p. 316
CT findings in occult lung carcinoma (*tip*), January, p. 244
CT scanning
—in the diagnosis and management of abscesses (*tip*), March, p. 318
—for epidural metastases (*tip*), May, p. 278
cutaneous atrophy after corticosteroid injection, *January, p. 183
cyclosporine-associated renal arteriopathy (*tip*), February, p. 340
cystic fibrosis, innervation of sweat glands in (*tip*), April, p. 252

d

day-care centers, diarrheal illness in (*tip*), May, p. 236
death
—spontaneous abortion and (*tip*), February, p. 351
—sudden, in asthmatic children (*tip*), March, p. 304
dermatitis
—atopic, food hypersensitivity and (*tip*), June, p. 214
—diaper, simple preparation cures (*med*), March, p. 263
—drug-induced, patch testing is safest method for evaluating (*med*), March, p. 263
—seborrheic, may signify AIDS in high-risk groups (*med*), March, p. 263
diabetes, longstanding, carries risk of ankle fractures (*med*), April, p. 235
diabetes is major risk factor for coronary disease in women (*med*), February, p. 296
diabetic control, improved, with low-dose guar (*tip*), March, p. 284
diabetic foot, management of, *May, p. 189
diabetic women, urinary infections in, respond to short-term therapy (*news*), January, p. 302
dialysis, peritoneal, and hernias (*tip*), May, p. 278
dialysis catheters, peritoneal, complications of (*tip*), February, p. 313
diaper dermatitis, simple preparation cures (*med*), March, p. 263
diaphragmatic hernia, traumatic (*tip*), June, p. 223
diaphragmatic injuries, traumatic, *January, p. 197
diarrhea
—acute, lactose-free formula in (*tip*), March, p. 322
—acute bacterial, clinical predictors of (*tip*), April, p. 288
—caused by *Plesiomonas shigelloides* (*tip*), March, p. 306
—unexplained, stool chemistries in patients with, *May, p. 131
diarrheal illness in day-care centers (*tip*), May, p. 236
diet, low-fat, and exercise modify symptomatic coronary disease (*med*), June, p. 197
diet and behavior (*ed*), January, p. 110
digitalis intoxication, arrhythmias from (*tip*), March, p. 286
diuretic therapy, what's new in, *May, p. 200
drainage, percutaneous, of malignant biliary obstruction (*tip*), April, p. 254
drug combinations, desirable, *June, p. 189
drug and nutrient interactions, *February, p. 165
drug overdose, suicide attempt by, *April, p. 137
drug therapy, adjuvant, for pain, *April, p. 227
drug-alcohol interactions, *April, p. 159
drug-induced dermatitis, patch testing is safest method for evaluating (*med*), March, p. 263
drugs
—and alcohol in trauma (*tip*), January, p. 252
—orphan (*FDA*), June, p. 235
drugs of abuse, contemporary, *March, p. 207

e

echocardiography is useful in diagnosing endocarditis (*med*), January, p. 239
edema
—high-altitude pulmonary (*tip*), June, p. 232
—reexpansion pulmonary (*tip*), March, p. 276
electroconvulsive therapy (*ed*), February, p. 122
embolism, pulmonary, venous thrombosis and, MDs explore (*news*), May, p. 295
emergency medical services: prehospital care, *February, p. 263
endocarditis
—echocardiography is useful in diagnosing (*med*), January, p. 239
—infective (*tip*), February, p. 348
endocrine neoplasia, multiple (*tip*), January, p. 288
endometriosis, thoracic (*tip*), January, p. 268
endurance training, cardiac changes associated with (*tip*), March, p. 296
enuretic children, guide to the history in, *April, p. 205
eosinophiluria (*tip*), January, p. 243
epidural metastases, CT scanning for (*tip*), May, p. 278
epileptics, carbamazepine may offer better quality of life for (*med*), April, p. 236
epiphyses, intravascular catheters in infants pose threat to (*med*), April, p. 236
epiphysis, slipped capital femoral, *April, p. 167
erythema ab igne in cancer patients (*tip*), June, p. 231
esophageal diseases, evaluation of, *January, p. 119
esophageal transection for variceal bleeding (*tip*), February, p. 305
exercise, low-fat diet and, modify symptomatic coronary disease (*med*), June, p. 197

f

familial polyposis coli, *February, p. 127
family distress, childhood poisoning as a sign of (*tip*), January, p. 290
febrile child, evaluation of (*tip*), April, p. 286
femoral epiphysis, capital, slipped, *April, p. 167
fiberoptic bronchoscopy for evaluation of hemoptysis (*tip*), January, p. 273
fibrosis, retroperitoneal (*tip*), January, p. 264

fistulas, pulmonary arteriovenous (*tip*), January, p. 268
food hypersensitivity and atopic dermatitis (*tip*), June, p. 214
foot, diabetic, management of, *May, p. 189
fractures, pelvic, unstable, immediate external fixation of (*tip*), May, p. 239

g

gallbladder, free perforation of (*tip*), February, 322
gamma globulin, intravenous, for treatment of acute ITP (*tip*), February, p. 318
gastric bezoars, *March, p. 123
gastrointestinal reactions from antibiotics (*tip*), May, p. 272
genital herpes and pregnancy, *March, p. 167
geriatric myths reconsidered, *March, p. 187
gestational age, assessing, *February, p. 215
glomerulonephritis without proteinuria (*tip*), April, p. 242
glucose, blood, self-monitoring of, *February, p. 225
gonadotropin-releasing hormone in breast carcinoma (*tip*), April, p. 278
graft healing, CT assessment of, after aortic reconstruction (*tip*), February, p. 316
grafts, vascular, prevention of platelet deposition in (*tip*), June, p. 232
grief, acute, management of, *February, p. 185
guar, low-dose, improved diabetic control with (*tip*), March, p. 284

h

hand lesions in bulimia (*tip*), June, p. 217
head and neck cancer
—intra-arterial chemotherapy for (*tip*), April, p. 288
—photodynamic therapy for (*tip*), February, p. 316
head and neck cancer patients, interleukin-2 production in (*tip*), May, p. 229
headaches during episodes of angina (*tip*), March, p. 272
heart failure
—congestive, captopril may be superior to hydralazine in (*med*), February, p. 296
—congestive, norepinephrine infusions in (*tip*), April, p. 272
heart surgery, open, old age itself does not prohibit (*med*), January, p. 240
hematuria: a clinical approach, *February, p. 194
hemolytic anemia, immune, induced by sulindac (*tip*), March, p. 318
hemoptysis, fiberoptic bronchoscopy for evaluation of (*tip*), January, p. 273
heparin, hyperkalemia induced by (*tip*), February, p. 338
hepatitis B carrier state, *April, p. 127
hepatitis B vaccine and AIDS (*tip*), March, p. 312
hepatoblastoma, *February, p. 141
hepatocellular carcinoma (*tip*), January, p. 276
hernia(s)
—peritoneal dialysis and (*tip*), May, p. 278
—traumatic diaphragmatic (*tip*), June, p. 223
herpes, genital, and pregnancy, *March, p. 167
herpes simplex virus infection, neonatal (*tip*), May, p. 266
herpes zoster
—may herald AIDS in high-risk patients (*med*), June, p. 197
—in pediatric patients (*tip*), May, p. 286
hilum, pulmonary, imaging of (*tip*), April, p. 252
H. influenzae colonization, persistence of, after meningitis (*tip*), June, p. 201
histiocytoma, fibrous, malignant (*tip*), February, p. 303
Hodgkin's disease
—advanced, radioactive antiferritin for (*tip*), June, p. 230
—marrow transplantation for (*tip*), June, p. 231
—thymic enlargement in (*tip*), February, p. 333
—treatment of (*tip*), May, p. 242
HTLV-III infection, prevalence of, in London (*tip*), February, p. 306
HTLV-III transmission, experts outline proper procedures to prevent (*news*), June, p. 248
hydralazine, captopril may be superior to, in congestive heart failure (*med*), February, p. 296
hyperactive children treated in private practice (*tip*), April, p. 266
hypercholesterolemia, familial, probucol shows efficacy in (*med*), March, p. 266
hypereosinophilia, idiopathic, thromboangiitis obliterans and (*tip*), March, p. 314
hyperkalemia induced by heparin (*tip*), February, p. 338
hyperparathyroidism
—after renal transplantation (*tip*), January, p. 254
—secondary, value of ultrasonography in (*tip*), March, p. 290
hypertension
—mild, data reveal definite benefits from treating (*med*), May, p. 223
—reactive pulmonary, in sarcoidosis (*tip*), April, p. 294
hyperthermic limb perfusion in recurrent melanoma (*tip*), February, p. 326
hyperthyroidism after primary hypothyroidism (*tip*), March, p. 274
hypertrophic obstructive cardiomyopathy, anesthetic risk in (*tip*), March, p. 320
hypnoanesthesia (*tip*), January, p. 256
hypoglycemia-induced neuronal damage (*tip*), April, p. 264

hypokalemia, the difficult diagnosis of, *February, p. 256
hypothyroidism
—congenital (*tip*), June, p. 201
—primary, hyperthyroidism after (*tip*), March, p. 274

i

immunizations, adult, *June, p. 89
immunotherapy, bee venom (*tip*), March, p. 286
incontinence, anal, management of, *March, p. 129
infant, premature, office care of, *May, p. 119
infant lead exposure and parental care (*tip*), February, p. 320
infantile apnea, prolonged, and SIDS (*tip*), March, p. 269
infantile autism, *June, p. 149
infants, intravascular catheters in, pose threat to epiphyses (*med*), April, p. 236
infarction
—myocardial, after cocaine use (*tip*), March, p. 302
—myocardial, static-dynamic effort after (*tip*), April, p. 292
—timing of thrombolytic therapy is important in (*med*), May, p. 224
insomnia, evaluation of, *April, p. 185
interleukin-2 production in head and neck cancer patients (*tip*), May, p. 229
intracoronary injections, coronary blood flow and (*tip*), March, p. 294
intracranial neoplasms in children, *February, p. 243
ipecac syrup (*tip*), January, p. 286
iron, intravenous, for patients refusing transfusion (*tip*), February, p. 328
iron stores, decreased, in female adolescent runners (*tip*), June, p. 211
irradiation, total body, for intractable polymyositis (*tip*), February, p. 314
ischemia, cardiac, beta-adrenergic receptors in (*tip*), May, p. 235
ITP, acute, intravenous gamma globulin for treatment of (*tip*), February, p. 318

magnetic resonance imaging aids in diagnosing multiple sclerosis (*med*), April, p. 235
marrow transplantation for Hodgkin's disease (*tip*), June, p. 231
measles incidence is comparable to previous data but ages differ (*news*), March, p. 329
melanoma
—distant metastatic, surgical treatment of (*tip*), April, p. 282
—giant congenital nevus and, *June, p. 167
—malignant (*tip*), May, p. 270
—metastatic, distant, surgical treatment of (*tip*), April, p. 282
—recurrent, hyperthermic limb perfusion in (*tip*), February, p. 326
meningitis
—bacterial, drugs of choice for, *February, p. 285
—persistence of *H. influenzae* colonization after (*tip*), June, p. 201
meningomyelocele, catheterization in children with (*tip*), May, p. 253
menses, isolated, before puberty (*tip*), March, p. 316
meralgia paresthetica, *March, p. 141
mesothelioma, pleural, *May, p. 103
metastases
—epidural, CT scanning for (*tip*), May, p. 278
—from prostatic cancer, identification of (*tip*), March, p. 278

migraine patient, management of, *January, p. 137
minocycline, tooth discoloration due to (*tip*), April, p. 264
morphine infusions for postoperative pain (*tip*), February, p. 300
multiple myeloma, survival in (*tip*), April, p. 268
multiple sclerosis, magnetic resonance imaging aids in diagnosing (*med*), April, p. 235
murmurs, systolic, bedside maneuvers can identify likely origin of (*med*), May, p. 223
muscle disease, childhood, elevated aminotransferases in (*tip*), May, p. 284
myeloma, multiple, survival in (*tip*), April, p. 268
myocardial infarction
—after cocaine use (*tip*), March, p. 302
—static-dynamic effort after (*tip*), April, p. 292
myoglobinemia, rhabdomyolysis and, in neonates (*tip*), April, p. 247
myositis, streptococcal (*tip*), March, p. 300

n

nasolacrimal duct, congenital obstruction of (*tip*), March, p. 300
necrotizing soft tissue infections (*tip*), February, p. 335
needle localization of nonpalpable breast masses (*tip*), January, p. 289
neonatal herpes simplex virus infection (*tip*), May, p. 266
neonatal jaundice, home phototherapy for (*tip*), June, p. 222
neonatal septicemia due to *Pseudomonas aeruginosa*, *March, p. 147
neonates
—chlamydial conjunctivitis in, treatment of (*tip*), January, p. 296
—rhabdomyolysis and myoglobinemia in (*tip*), April, p. 247
neoplasia, multiple endocrine (*tip*), January, p. 288
neoplasms
—intracranial, in children, *February, p. 243
—malignant, in polymyositis-dermatomyositis (*tip*), May, p. 250
nephropathy from ascorbic acid (*tip*), February, p. 313
nervous system, sarcoidosis of (*tip*), May, p. 239
neuronal damage, hypoglycemia-induced (*tip*), April, p. 264
neuropathy, familial steroid-responsive, *May, p. 175
nevus, giant congenital, and melanoma, *June, p. 167
norepinephrine infusions in congestive heart failure (*tip*), April, p. 272
NSAIDs, acetabular bone destruction from (*tip*), March, p. 320
nutritional status is important in 'preop' assessment (*med*), April, p. 235

o

obesity and television viewing (*tip*), January, p. 284
oral cancer, smokeless tobacco use increases risks of, says NIH panel (*news*), March, p. 333
oral chelation products (*FDA*), March, p. 325
orphan drugs (*FDA*), June, p. 235
osteomyelitis, Pseudomonas (*tip*), April, p. 281
otitis media
—acute, treatment of (*tip*), February, p. 336
—recurrent, sulfisoxazole prophylaxis for (*tip*), March, p. 284
—and tympanostomy tubes (*tip*), May, p. 270
overdose
—acetaminophen, acute, management of, *May, p. 107
—drug, suicide attempt by, *April, p. 137
—tricyclic antidepressant (*tip*), May, p. 283
oxygen deprivation, experts say cause of acute renal failure is (*news*), February, p. 354

p

pain
—adjuvant drug therapy for, *April, p. 227
—chest, in children (*tip*), February, p. 338
—low back, *March, p. 173
—postoperative, morphine infusions for (*tip*), February, p. 300
—shoulder, in a teenager, timely evaluation of, *February, p. 177
pancreatic ascites (*tip*), May, p. 247
pancreatic pseudocysts, pleuropericardial effusions from (*tip*), January, p. 284
pancreatitis, acute, absolute lymphocyte count in (*tip*), April, p. 256
papillomatosis, juvenile laryngotracheal, *April, p. 155
parents, overanxious, *January, p. 189
parietal cell vagotomy, ulcer recurrence after (*tip*), April, p. 284
parkinsonism, toxin-induced: recent developments, *March, p. 251
patch testing is safest method for evaluating drug-induced dermatitis (*med*), March, p. 263
P. carinii pneumonia, diagnosis of (*tip*), May, p. 250
peanut shells, colitis from (*tip*), February, p. 298
pediatric patients, herpes zoster in (*tip*), May, p. 286
pelvic fractures, unstable, immediate external fixation of (*tip*), May, p. 239

pelvic inflammatory disease, differentiation of appendicitis from (*tip*), February, p. 300
penicillin, twice-daily, for streptococcal pharyngitis (*tip*), June, p. 201
perimenopausal bleeding, *February, p. 233
peritoneal dialysis catheters, complications of (*tip*), February, p. 313
peritoneal dialysis and hernias (*tip*), May, p. 278
peritonei, pseudomyxoma, *April, p. 173
peritonitis, maternal, from vernix caseosa (*tip*), January, p. 244
pertussis vaccine and convulsions (*tip*), April, p. 262
pharyngitis
—streptococcal, antibiotic therapy for, efficacy of (*tip*), February, p. 308
—streptococcal, twice-daily penicillin for (*tip*), June, p. 201
phenylbutazone, systemic vasculitis induced by (*tip*), January, p. 266
pheochromocytoma, erroneous diagnosis of (*tip*), March, p. 269
photodynamic therapy for head and neck cancer (*tip*), February, p. 316
phototherapy, home, for neonatal jaundice (*tip*), June, p. 222
physical activity in the young, *March, p. 155
physician impairment, intervention is needed to successfully curb (*news*), March, p. 344
pica: an overview, *May, p. 181
plague, *June, p. 159
platelet deposition, prevention of, in vascular grafts (*tip*), June, p. 232
Plesiomonas shigelloides, diarrhea caused by (*tip*), March, p. 306
pleural effusion after liver transplantation (*tip*), May, p. 242
pleural mesothelioma, *May, p. 103
pleuropericardial effusions from pancreatic pseudocysts (*tip*), January, p. 284
pneumococcal vaccine in children (*tip*), March, p. 278
Pneumocystis carinii pneumonia, treatment of (*tip*), April, p. 248
pneumonia
—in AIDS patients (*tip*), January, p. 266
—aspiration: a review, *March, p. 195
—*P. carinii*, diagnosis of (*tip*), May, p. 250
—*Pneumocystis carinii*, treatment of (*tip*), April, p. 248
poisoning, childhood, as a sign of family distress (*tip*), January, p. 290
polymyositis, intractable, total body irradiation for (*tip*), February, p. 314
polymyositis-dermatomyositis, malignant neoplasms in (*tip*), May, p. 250
polyposis coli, familial, *February, p. 127
popliteal aneurysms (*tip*), February, p. 310
porphyrias, *March, p. 219
postoperative jejunal feeding, efficacy of (*tip*), March, p. 304
postoperative pain, morphine infusions for (*tip*), February, p. 300
pregnancy
—cerebrovascular disorders associated with, *June, p. 125
—chemotherapy for sarcoma diagnosed during (*tip*), April, p. 256
—genital herpes and, *March, p. 167
pregnant women, incidence of stroke in (*tip*), June, p. 223
prehospital care: emergency medical services, *February, p. 263
premature infant, office care of, *May, p. 119
prematurity, apnea of, theophylline for (*tip*), February, p. 310
premenstrual syndrome, biopsychosocial approach to, *June, p. 117
presacral mass, anorectal malformation, sacral bony abnormality and, *January, p. 133
proarrhythmic effects of quinidine (*tip*), June, p. 211
probucol shows efficacy in familial hypercholesterolemia (*med*), March, p. 266
proctitis, chemical, after colonoscopy is linked to cleaning agent (*med*), June, p. 198
prostatic cancer
—chemotherapy for (*tip*), May, p. 264
—identification of metastases from (*tip*), March, p. 278
proteinuria, glomerulonephritis without (*tip*), April, p. 242
pseudocysts, pancreatic, pleuropericardial effusions from (*tip*), January, p. 284
Pseudomonas aeruginosa, neonatal septicemia due to, *March, p. 147
Pseudomonas osteomyelitis (*tip*), April, p. 281
pseudomyxoma peritonei, *April, p. 173
pseudotumor cerebri induced by lithium (*tip*), January, p. 276
psychologic outcome: amputation vs. limb salvage (*tip*), May, p. 274
puberty, isolated menses before (*tip*), March, p. 316
pulmonary arteriovenous fistulas (*tip*), January, p. 268
pulmonary edema
—high-altitude (*tip*), June, p. 232
—reexpansion (*tip*), March, p. 276
pulmonary embolism, venous thrombosis and, MDs explore (*news*), May, p. 295
pulmonary hilum, imaging of (*tip*), April, p. 252
pulmonary hypertension, reactive, in sarcoidosis (*tip*), April, p. 294
pulmonary vein obstruction (*tip*), March, p. 290

purpura, palpable, in leukocytoclastic vasculitis, *April, p. 197

q

quinidine, proarrhythmic effects of (*tip*), June, p. 211

r

racial differences in bilirubin levels (*tip*), January, p. 264
radial head subluxation (*tip*), May, p. 235
radial keratotomy, what patients should know about, *May, p. 169
radioactive antiferritin for advanced Hodgkin's disease (*tip*), June, p. 230
radiotherapy
—preoperative, for rectal cancer (*tip*), January, p. 261
—for seminomas (*tip*), June, p. 207
recanalization, coronary artery spasm after (*tip*), January, p. 289
rectal cancer, preoperative radiotherapy for (*tip*), January, p. 261
red blood cells, artificial, synthesis of (*tip*), April, p. 261
red cell fragmentation syndrome (*tip*), January, p. 249
renal arteriopathy, cyclosporine-associated (*tip*), February, p. 340
renal failure
—acute, cause of, is oxygen deprivation, experts say (*news*), February, p. 354
—acute, new concepts in, *March, p. 109
renal transplantation, hyperparathyroidism after (*tip*), January, p. 254
respiratory distress syndrome
—surfactant therapy for (*tip*), February, p. 298
—surfactant therapy for prevention of (*tip*), April, p. 281
respiratory infections, treating, in the era of cost control, *February, p. 153
respiratory symptoms from low-tar cigarettes (*tip*), January, p. 294
restless legs syndrome, *January, p. 147
resuscitation, withholding, *January, p. 207
retrolental fibroplasia, risk factors for (*tip*), April, p. 275
retroperitoneal fibrosis (*tip*), January, p. 264
rhabdomyolysis and myoglobinemia in neonates (*tip*), April, p. 247
rheumatic fever, acute, cardiac rhythm disturbances in (*tip*), April, p. 271
rib, slipping, syndrome (*tip*), April, p. 282
rubella and CRS rates decline in 1985 but still cause concern (*news*), June, p. 246
runners, female adolescent, decreased iron stores in (*tip*), June, p. 211
rupture, ventricular septal, surgical repair of (*tip*), March, p. 308

s

sacral bony abnormality and presacral mass, anorectal malformation, *January, p. 133
sacrococcygeal teratoma (*tip*), March, p. 270
saliva, transmission of AIDS virus by, antibody may prevent (*news*), April, p. 301
sarcoidosis
—cardiac (*tip*), May, p. 230
—of the nervous system (*tip*), May, p. 239
—reactive pulmonary hypertension in (*tip*), April, p. 294
—skin lesions in, significance of (*tip*), May, p. 284
sarcoma diagnosed during pregnancy, chemotherapy for (*tip*), April, p. 256
screening, routine, in asymptomatic patients, experts evaluate (*news*), March, p. 336
scrotal ultrasonography (*tip*), April, p. 241
seborrheic dermatitis may signify AIDS in high-risk groups (*med*), March, p. 263
seizures in children, home video recording of (*tip*), May, p. 280
self-inflicted injuries in children and adolescents (*tip*), April, p. 291
seminomas, radiotherapy for (*tip*), June, p. 207
septicemia, neonatal, due to *Pseudomonas aeruginosa*, *March, p. 147
serum sickness syndrome, *January, p. 157
sexual dysfunction, cimetidine and (*tip*), January, p. 280
shoulder pain in a teenager, timely evaluation of, *February, p. 177
sickle cell disease, splenic sequestration in (*tip*), April, p. 268
SIDS, prolonged infantile apnea and (*tip*), March, p. 269
skin conditions, common, in humans and animals, *April, p. 177
skin lesions, significance of, in sarcoidosis (*tip*), May, p. 284
sleep apnea, study reveals strongest predictor of (*med*), January, p. 240
smoking cessation, self-confidence is key to (*med*), January, p. 240
smoking cessation techniques, training in, may help physicians (*med*), February, p. 295
snoring
—as a risk factor for disease (*tip*), April, p. 261
—not funny—not hopeless, *February, p. 205
soft tissue infections, necrotizing (*tip*), February, p. 335
softball injuries: cost, cause and prevention, *June, p. 143
spermatic cord torsion, diagnosis of (*tip*), May, p. 232
splenic sequestration in sickle cell disease (*tip*), April, p. 268
spondylosis, cervical, *May, p. 89
sports participation, physical maturity screening for (*tip*), February, p. 306

stenosis, carotid artery, in cardiac surgery patients (*tip*), March, p. 314
steroid, anabolic, use in women athletes (*tip*), January, p. 290
steroid pulse therapy, *May, p. 217
steroid-responsive neuropathy, familial, *May, p. 175
stool chemistries in patients with unexplained diarrhea, *May, p. 131
streptococcal cellulitis, perianal (*tip*), May, p. 272
streptococcal myositis (*tip*), March, p. 300
streptococcal pharyngitis
—antibiotic therapy for, efficacy of (*tip*), February, p. 308
—twice-daily penicillin for (*tip*), June, p. 201
stroke in pregnant women, incidence of (*tip*), June, p. 223
stroke prevention, carotid surgery in, *April, p. 109
subluxation, radial head (*tip*), May, p. 235
suicide attempt by drug overdose, *April, p. 137
sulfisoxazole prophylaxis for recurrent otitis media (*tip*), March, p. 284
sulindac, immune hemolytic anemia induced by (*tip*), March, p. 318
surfactant therapy
—for prevention of respiratory distress syndrome (*tip*), April, p. 281
—for respiratory distress syndrome (*tip*), February, p. 298
sweat glands, innervation of, in cystic fibrosis (*tip*), April, p. 252
syphilis, congenital (*tip*), March, p. 285
systolic murmurs, bedside maneuvers can identify likely origin of (*med*), May, p. 223

t

tachycardia, multifocal atrial, verapamil controls (*med*), June, p. 197
teenager, timely evaluation of shoulder pain in, *February, p. 177
telephone monitoring, transient arrhythmias can be detected by (*med*), June, p. 198
television viewing, obesity and (*tip*), January, p. 284
teratoma, sacrococcygeal (*tip*), March, p. 270
theophylline for apnea of prematurity (*tip*), February, p. 310
thoracic endometriosis (*tip*), January, p. 268
thromboangiitis obliterans and idiopathic hypereosinophilia (*tip*), March, p. 314
thrombocytopenia after alpha-interferon therapy (*tip*), May, p. 272
thrombolysis, coronary, with precursor of urokinase (*tip*), April, p. 247
thrombolytic therapy, timing of, is important in infarction (*med*), May, p. 224
thymic enlargement in Hodgkin's disease (*tip*), February, p. 333
thyroid nodule, evaluation of, *May, p. 147
tick removal (*tip*), January, p. 261
TMJ dysfunction (*tip*), March, p. 294
tobacco
—smokeless, use increases risks of oral cancer, says NIH panel (*news*), March, p. 333
—war against (*ed*), April, p. 98
tocainide: a new drug for ventricular arrhythmias, *January, p. 233
toe, blue, syndrome, *June, p. 107
tooth discoloration due to minocycline (*tip*), April, p. 264
toxin-induced parkinsonism: recent developments, *March, p. 251
transfusion, intravenous iron for patients refusing (*tip*), February, p. 328
transplantation
—liver, pleural effusion after (*tip*), May, p. 242
—marrow, for Hodgkin's disease (*tip*), June, p. 231
—renal, hyperparathyroidism after (*tip*), January, p. 254
—vein valve (*tip*), March, p. 281
trauma
—acute acalculous cholecystitis after (*tip*), March, p. 274
—drugs and alcohol in (*tip*), January, p. 252
traumatic diaphragmatic hernia (*tip*), June, p. 223
tuberculosis, CDC officials report upward trend in (*news*), February, p. 352
tympanostomy tubes, otitis media and (*tip*), May, p. 270

u

ulcer recurrence after parietal cell vagotomy (*tip*), April, p. 284
ulcers, venous, management of, *February, p. 274
ultrasonography
—scrotal (*tip*), April, p. 241
—in secondary hyperparathyroidism, value of (*tip*), March, p. 290
urinary infections in diabetic women respond to short-term therapy (*news*), January, p. 302
urinary tract infection(s)
—*June, p. 172
—in children (*tip*), January, p. 254
urokinase, precursor of, coronary thrombolysis with (*tip*), April, p. 247
urologic cancer, aspiration cytology for staging (*tip*), April, p. 241
urticaria, cold, *February, p. 145

v

vagotomy, parietal cell, ulcer recurrence after (*tip*), April, p. 284
variceal bleeding, esophageal transection for (*tip*), February, p. 305
vascular grafts, prevention of platelet deposition in (*tip*), June, p. 232

vasculitis
—leukocytoclastic, palpable purpura in, *April, p. 197
—systemic, induced by phenylbutazone (*tip*), January, p. 266
vein, pulmonary, obstruction (*tip*), March, p. 290
vein valve transplantation (*tip*), March, p. 281
venous thrombosis
—compression stockings effectively prevent (*med*), January, p. 239
—and pulmonary embolism, MDs explore (*news*), May, p. 295
venous ulcers, management of, *February, p. 274
ventricular arrhythmias
—management of, *March, p. 236
—a new drug for: tocainide, *January, p. 233
ventricular septal rupture, surgical repair of (*tip*), March, p. 308
verapamil
—controls multifocal atrial tachycardia (*med*), June, p. 197
—may be good antihypertensive for black patients (*med*), March, p. 266
—shows efficacy as antihypertensive agent (*med*), January, p. 239
vernix caseosa, maternal peritonitis from (*tip*), January, p. 244
video recording, home, of seizures in children (*tip*), May, p. 280
viral infections, changes in cardiac function are associated with (*med*), February, p. 295
vitiligo, *May, p. 137
